

I live and work in the Metro DC/Baltimore area. I travel regularly in this area. XM Radio is extremely valuable for Traffic and Weather Info and helps me on a regular basis. (not to mention the outstanding music and talk variety). RF broadcast alternatives are not as regular and are full of unwanted commercial content. I subscribe to XM for exactly the value they provide.

Competition is good...I'm sure you agree, it's the basis of what has made America the outstanding success it is.

Limiting competition is wrong and I'm sure is not intended.

I DO NOT support NAB's petition 04-160!

Please reject this petition with prejudice and send a message to the NAB that a better competitive product is the correct way to petition for the "public good".

Regards
C.F. Lea
